Publications of Dmitry Shepelsky

1. D.Shepelsky, Reconstruction of electric conductivity of a medium in the class of discontinuous and increasing functions, Report Inst. Low Temp. Phys., Kharkov, 25 (1987), 1-17.
2. D.Shepelsky, Inverse problem of spectral analysis for the operator with sewing conditions, XIV Conference on Operator Theory in Function Spaces, Novgorod (1989), 232.
3. D.Shepelsky, Inverse spectral problem for the Dirac-like operator with jump conditions, XV Conference on Operator Theory in Function Spaces, Ul'yanovsk (1990), 34.
4. D.Shepelsky, Stability of the inverse MT problem in the class of discontinuous functions, Report Inst. Low Temp. Phys. Eng., Kharkov, 15 (1991), 1-30.
5. D.Shepelsky, Characterization of the data of an inverse problem of electromagnetic sounding in a class of discontinuous functions, Operator Theory, Subharmonic Functions, Naukova Dumka, Kiev (1991), 154-164.
6. D.Shepelsky, An inverse spectral problem for a Dirac-type operator with “sewing”, Dynamical Systems and Complex Analysis, Naukova Dumka, Kiev (1992), 104-112.
7. D.Shepelsky, Inverse scattering problem for media with anisotropy, Proceedings of the 1992 International Symposium on Antennas and Propagation (ISAP-92), Sapporo, Japon, 382-385.
8. E.Khruslov and D.Shepelsky, Inverse magnetotelluric problem at horizontal propagation of exciting waves, Proceedings of Progress in Electromagnetics Research Symposium (PIER 1993), Jet Propulsion Laboratory, California (1993), 382.
9. E.Khruslov and D.Shepelsky, Inverse scattering method in electromagnetic sounding theory, Inverse Problems, 10, no. 1 (1994), 1-37.
10. D.Shepelsky, The inverse problem of reconstruction of the medium's conductivity in a class of discontinuous and increasing functions, Spectral Operator Theory and Related Topics, Advances in Soviet Mathematics, 19, ed. V.A.Marchenko, AMS, Providence, RI (1994), 209-232.
11. A.Boutet de Monvel and D.Shepelsky, Inverse scattering problem for anisotropic media, J.Math. Phys., 36, no.7 (1995), 3443-3453.
12. A.Boutet de Monvel, M.Shcherbina and D.Shepelsky, On the integrated density of states for a certain ensemble of random matrices, Random Oper. Stochastic Equations, 6, no.4 (1998), 331-338.
13. A.Boutet de Monvel and D.Shepelsky, Direct and inverse scattering problem for a stratified nonreciprocal chiral medium, Inverse Problems, 13, no.2 (1997), 239-251.
14. A.Boutet de Monvel and D.Shepelsky, Inverse scattering approach for stratified chiral media, Inverse Problems of Wave Propagation and Diffraction, eds. G.Chavent and P.Sabatier, Lecture Notes in Physics 486, Springer-Verlag, Berlin, 1997, 47-57.
15. A.Boutet de Monvel and D.Shepelsky, Inverse scattering problem for a stratified bi-isotropic medium at oblique incidence, Inverse Problems, 14, no.1 (1998), 29-40.

16. D.Sheen and D.Shepelsky, Inverse scattering problem for stratified uniaxial bianisotropic medium, Mathematical and numerical aspects of wave propagation, ed. J.DeSanto, SIAM, Philadelphia, PA, 1998, 517-519.
17. D.Sheen and D.Shepelsky, Inverse scattering problem for a stratified ansiotropic slab, Inverse Problems, 15, no.2 (1999), 499-514.
18. D.Sheen and D.Shepelsky, Uniqueness in simultaneous reconstruction of multiparameters of atransmission line, J.Electromagn.Waves Appl., 13 (1999), 337—338; Progress in Electromagnetic Research, PIER 21 (1998), 153-172.
19. D.Sheen and D.Shepelsky, Uniqueness in a frequency-domain inverse problem of a stratified uniaxial bianisotropic medium, Wave Motion, 31, no.4 (2000), 371-385.
20. A.Boutet de Monvel and D.Shepelsky, A frequency-domain inverse problem for a dispersive stratified chiral medium, J.Math.Phys. 41, no.9 (2000), 6116-6129.
21. D.Shepelsky, A Riemann-Hilbert problem for propagation of electromagnetic waves in an inhomogeneous, dispersive Omega waveguide, Math.Phys.Anal.Geom. 3, no.2 (2000), 179-193.
22. A.Boutet de Monvel and D.Shepelsky, Riemann-Hilbert problem and frequency-domain inverse problem for a stratified omega medium, Mathematical and Numerical Aspects of Wave Propagation, eds. A.Bermudez et al., SIAM, Philadelphia, PA, 2000, 460-464.
23. A.Boutet de Monvel and D.Shepelsky, Frequency-domain modeling of inhomogeneous dispersive media: inverse scattering problem, Proceedings of the European Symposium on Numeric Methods in Electromagnetics, Toulouse, 2002, 311-316.
